

# Custom Awnings & Shade Structures

- ✓ **Commercial use**
- ✓ **Corporate events**
- ✓ **Trade shows**
- ✓ **Special events**
- ✓ **Residential**

*We have a lot of "attitude".* From the president down to the installers.

It's a true "can-do" attitude that makes us an innovative leader in the design, manufacturing and installation of first quality awnings and custom fabric structures

It's an attitude that forms long lasting relationships with our clients and makes resolving your design problems our highest priority.

Our team of professionals are experts in computer design, sewing, welding and customer service creating and completing high quality products on time and on budget.

Fabric structures offer an economical solution to enhance the appearance of your facility while offering the added benefits of saving energy and protection from the elements

Sombrilla Contractors designs, builds and installs custom designed awnings in a wide variety of shapes and sizes that will surely enhance your facility or create a whole new look for you.

We welcome the opportunity to place all of our experience and expertise at your disposal.

**Call us or come by our showroom to visit. You're always welcome.**
